"DANCERS CONNECTING DANCERS"

This class covers materials that uses the basics as taught in the LA WCS basics class. You will need a solid understanding of the basics, including whips, variations, syncopations and extensions for this class.

The information we present is designed to show the student how to adjust and change the fundamentals in WCS. Adjustments to your basics in order to create more versatility in your interpretation of the dance may occur. We may require demonstration of those basics for entry to the class.

"DANCERS CONNECTING DANCERS"

The material Bruce and I will cover in this 6 week introductory course will be at a basics/beginner level. This smooth, country slow dance we will be teaching is not to be confused with the original Nightclub 2 Step that begins its 4 ct. basic with a "quick, quick, slow" rhythm with a back rock, pulses up on 2 and 4 and is danced to mid-tempo ballads. **Nightclub 2 Country Slow Dance**, in contrast, starts and develops the "slow" with smooth legato movement and completes its basic step in 8 counts. Come join as we introduce you to some basic technique and patterns of this slow, beautiful dance. Privates also available by appointment.
