For further information on their classes and schedule, please go to www.dansynergy.com

For private sessions, call
Bruce 954-464-9210
Beth 561-346-8233

Prerequisite -Successful Completion of our “BEYOND the Basics class” OR the demonstration of following or leading such class content. All basic patterns, technique and content from our first 2 classes will be assumed and built upon. You will need a solid understanding of all basics, including at least 4 basic whips, basic understanding of footwork variations and concept of simple syncopations, pattern extensions and how to comfortably and safely complete, follow and/or lead turns. The information we present is designed to teach the student how to use advanced following/leading skills. With the use of match resistance and sustained connection dancers will be able to lead/follow unfamiliar movements with any partner while also creating contrast with speed or height. In this class we will also combine multiple patterns together and teach basic musical structure as it relates to musicality in WCS. This allows for music interpretation, follower “play” and hitting breaks. Instructors must approve entry to this “Advanced Class” and may require a dance with instructor to demonstrate pre-requisite skills prior to class entry.
