

LA STYLE WEST COAST SWING: THE BASICS

Many dancers have remarked about the smoothness and flow that is inherent in the dance style of LA WCS. The style is rooted in the idea of "rolling Count" and seamless dancing where one pattern flows right into the next. In this class, Bruce and Beth go over basic concepts in WCS and how to work with your basic to create a flowing, fun dance!

Mondays: 8:30 - 9:30 PM Goldcoast Ballroom \$15 Per Person

Bruce and Beth Perrotta are both certified by the GSDTA as dance instructors.

For further information on their classes and schedule, please go to www.dansynergy.com

Bruce 954-464-9210
Beth 561-346-8233

****Practice Session
Included - Students
may come early to practice or dance with
their classmates
from 8-8:30. ** Instructors will be
circulating as
needed to assist
Students from both classes with class ma-
terial.**

"DANCERS CONNECTING DANCERS"

This class is taught over a 12 week period, which is broken into 4, 3 week "modules" to further your dancing by focus on particular topics grouped together. The beginner series incorporates the 22 fundamental patterns identified by the GSDTA (Golden State Dance Teachers Association) as the essentials to West Coast Swing development.

We focus both on techniques universal to dancing as well as particular to WCS. Although a little tougher for the student at the beginning, understanding body positions and using your center to move is going to benefit you the most in your dancing.

Instead of programming you, we want you to feel your dance develop, ultimately advancing you further and faster through good technique.
