Beth 561-346-8233

Students are welcome to come early and practice previous class material or dance with their classmates during the 30 minute practice dance session at 8pm.

Instructors are circulating and assisting all students at this time

“DANCERS CONNECTING DANCERS”

Prerequisite-Completion of our “Basics Class” or the knowledge of at least 8 WCS basics including a basic whip. In this BEYOND the Basics class we will take those fundamentals and show students how to add and adjust them to advance their WCS. We start by refining your connection skills, patterns and technique taught in the BASICS class. Students will learn alternate connection points, variations, shaping, syncopations and various turn techniques. They will also begin to learn and how to extend 6 and 8 count patterns to create more difficult/intricate patterns. This versatility will allow you to get creative in your interpretation of the music you hear while dancing WCS. Instructors may require demonstration of the basics patterns for entry into this class. **Successful completion of these BEYOND the Basics skills are required before participation in our ADVANCED class.
